

## Moovit Named Official Mobility App for Asian Games

*World's Most Popular Transit App to Help Three Million Fans Ride Public Transit to Games in Indonesia 18 Aug – 2 Sept 2018.*

SAN FRANCISCO – 13 August 2018

[Moovit](#), the world's largest urban mobility data and analytics company and the #1 transit app, has been chosen as the official mobility app for the Asian Games (Asiad), to be held 18 August through 2 September 2018 in Jakarta and Palembang, Indonesia. The Asiad is the second largest multi-sport event after the Olympics with teams from 44 countries participating and three million fans expected to attend. Moovit is a free public transit app available on Android, iOS and the web with more than 200 million users in over 2,500 cities in 82 countries.

The Asiad Steering Committee chose Moovit as its official mobility app because Moovit has the most complete, up-to-date coverage of all modes of transit and lines in Jakarta & Palembang than any other provider. During the games Moovit will include all transit updates and changes and send local citizens and tourists alike notifications of these changes. Also, Moovit's app is fully localized in 44 languages, including Indonesian, Chinese (Simplified and Traditional), Japanese, Thai, Bahai Malay, Tagalog, Korean, Hindi, Russian, and Arabic. Moovit provides real-time transit arrivals and directions, trip plans, service alerts and Get Off Alerts. Moovit's entire interface and data are fully VoiceOver/TalkBack supported to make the app accessible for visually impaired people.

Moovit has extensive experience working with major sporting events as well as cities and municipalities to help people make better use of public transit. Moovit was the official transit app for the city of Rio de Janeiro for the 2016 Olympics and collaborated with the UEFA EURO 2016 Fan Guide App to help soccer fans during that competition. Italy's popular AS Roma football club announced Moovit as its Global Mobility App Partner earlier this year. More than 100 other events, venues and attractions have partnered with Moovit worldwide to help their patrons and fans use public transit.

"We commend the Asiad Steering Committee for working with the best companies in their class to make the Asian Games a truly world-class sports event," said Moovit Vice President Steve Swasey. "Moovit is committed to ensuring fans have the best possible public transit experience when attending the Games in multiple venues in two Indonesian cities. All over the world people depend on Moovit for their daily transit information, which is why we say, 'You ride, we guide.'"

## ABOUT MOOVIT

Moovit ([www.moovit.com](http://www.moovit.com)) is the world's largest transit data and analytics company and the #1 transit app. Moovit simplifies your urban mobility all around the world, making getting around town via transit easier and more convenient. By combining information from public transit operators and authorities with live information from the user community, Moovit offers travelers a real-time picture, including the best route for the journey. Named Best Local App by Google in 2016 and one of Apple's Best Apps of 2017, Moovit launched in 2012 and surpassed 200 million users in five years.

Moovit amasses four billion anonymous data points a day to add to the world's largest repository of transit data. The data gathering is aided by Moovit's network of more than 400,000 local editors called "[Moovitors](#)." These passionate users help map and maintain local transit information in cities that would otherwise be unserved. Moovitors account for 65 percent of the hundreds of cities Moovit opens every year and make Moovit the Wikipedia of Transit.

Moovit is an early pioneer of Mobility as a Service (MaaS). The company helps people change the way they consume mobility by fully integrating other forms of transport, such as local bicycle services, into its app. In 2017 Moovit launched its [Smart Transit Suite](#) of products to help cities, governments and transit operators improve urban mobility in their cities.

Moovit is available for free on [iOS](#), [Android](#) and the [Web](#) in more than 2,500 cities, across 82 countries, and can be used in 44 languages. More than 100 cities and global events, including Rio de Janeiro for the 2016 Olympics, have made Moovit their official transit app.
