

Moovit to Help Fans Get to the 2019 Inter Summer Tour

#InterOnTour, Football Fans Will Arrive at Summer Tournaments Matches with Greater Convenience and Ease Thanks to Moovit's Mobility App collaboration with Inter

Singapore – 20 July 2019

[Moovit](#), the leading Mobility as a Service (MaaS) company and the maker of the world's #1 urban mobility app will help Inter fans have a smoother journey to the International Champions Cup (ICC), the International Super Cup, and the 2019 bwin Trofeo Naranja matches across Asia and Europe this summer.

Moovit's free app for Android or iOS has everything you need to travel using public and shared transportation with peace of mind. It offers multi-modal trip planning, step-by-step directions, real-time arrivals for your transit lines and service alerts. By using Moovit on match days both seasoned local riders and international fans can take public transportation and micro-mobility services to the matches and ride with confidence, having the best experience available at their fingertips.

For all five Inter matches, Moovit will provide special instructions on how to travel to the dedicated areas for Inter fans and the main gates of each stadium.

Moovit will also add the stadiums as points of interest on its app, making it easy to search for them in the app's search bar or on the map, and get step-by-step directions to these locations.

Inter announced the collaboration with Moovit in February 2019, helping local fans arrive with confidence and ease to its European matches, so that they never miss the kick-off.

Inter's summer of international tournament will begin on Saturday 20 July, when Inter will face Manchester United in Singapore. On Wednesday 24 July, Juventus will be the opponents in Nanjing. Before returning to Europe and London to face Tottenham Hotspur on 4 August, the Nerazzurri will travel to Macau to play a prestigious match against Paris Saint-Germain in the International Super Cup on 27 July. Then, on August 10th, Inter will fly to Spain: In action at the Mestalla, and as part of the hosts Centenary celebrations, the Nerazzurri will face Valencia in the 2019 bwin Trofeo Naranja.

With a single tap of the links below, fans get step-by-step directions from their current location to each match:

Moovit has extensive experience partnering with major sporting clubs and events as well as cities and municipalities to help people make better use of the different mobility services.

“Whether it’s to save time, bypass auto traffic or avoid paying high parking fees, traveling to large sports events like the International Champions Cup is best done via public transit,” said Moovit Chief Growth & Marketing Officer Yovav Meydad. “However, out-of-town fans or others who don’t routinely ride transit can become perplexed when deciphering the best route. Moovit removes the guesswork. By partnering with Moovit, Inter is helping their fans arrive to the matches in the quickest way so they have more time to enjoy them, and less time worrying about how to get there.”

“Moovit is the biggest urban mobility app and the leading Mobility as a Service (MaaS) company in the world with more than 480 million users in 91 countries”, Meydad added. Our mission is to simplify urban mobility by providing innovative solutions for consumers, cities, municipalities, and transport operators. With more people favoring public and shared transportation services our cities will become less congested, safer, and greener.”

ABOUT MOOVIT

Moovit (www.moovit.com) is a leading Mobility as a Service (MaaS) company and the maker of the world's #1 urban mobility app.

The Moovit free app guides people get around cities effectively & conveniently, using any mode of transport. Introduced in 2011 it now serves over 480M users in more than 2,900 cities across

91 countries. It is available for free on [iOS](#), [Android](#) and the [Web](#) and can be used in 45 languages.

By combining information from public transit operators, micro-mobility operators and transport authorities with live information from the user community, Moovit offers travelers a real-time picture, including the best route for the journey. The app was named Best Local App by Google in 2016, a finalist for Google's Build for Billions category in 2018 and one of Apple's Best Apps of 2017.

Moovit amasses up to five billion anonymous data points a day to add to the world's largest repository of transit & urban mobility data. The data gathering is aided by Moovit's network of more than 600,000 local editors called "Moovitors." These passionate users help map and maintain local transit information in cities that would otherwise be unserved. Moovitors account for 70 percent of the hundreds of cities Moovit opens every year and make Moovit the Wikipedia of Transit.

For governments, cities and transit agencies, Moovit offers AI-powered [MaaS solutions](#) covering operations and analytics, with proven value in reducing congestion, growing ridership, and increasing efficiency and asset utilization.

Moovit's advanced technology platform runs the world's largest repository of transit & mobility data. Hundreds of cities, transit agencies, and mega-events repeatedly choose Moovit to address their mobility challenges and increase their level of service to citizens and visitors.

They were recently joined by Industry leaders such as Microsoft and Uber who have partnered with Moovit to use our world-leading transit APIs in their apps and services.
